

Rasuwa-Bhotekoshi Flood: Search, Rescue and Relief Response

Situation Report # 17

Date: 18 September 2026 Time: 07:00PM

This report has been prepared by the NDRRMA based on information received from DAO and District/National Emergency Operation Centers. It summarizes the response actions undertaken for search, rescue, and relief management following the Rasuwa-Bhotekoshi flood situation.

Highlights

- Across 19 health facilities, 344 patients have received treatment: 290 have been discharged, 18 remain under treatment, 32 have been referred to other hospitals, and four have died during treatment. The 18 patients remaining under treatment are at Tribhuvan University Teaching Hospital (eight), National Trauma Center (three), Paropakar Maternity and Women's Hospital (three), Patan Academy of Health Sciences (two), Shree Birendra Hospital (one) and B&B Hospital (one).
- Following site inspections, the Rasuwa District Security Committee and project management determined that further search and rescue operations are not currently required at Langtang and Chilime hydropower projects.
- Thirteen bodies have been recovered from Adit 3 at Upper Trishuli-1 in Hakubesi: six initially, followed by seven more. Search and recovery continue in the area where approximately 20 suspected bodies had earlier been reported beneath mud inside the tunnel.
- Two-way traffic has been operating at Krishnabhir since 06:00 on 17 September. Traffic at Jyamireghat–Chaukibhir resumed on the morning of 18 September following an interruption the previous evening.
- An additional 100 kitchen-utensil sets have been distributed to flood-affected families in Uttargaya Wards 1–5, in coordination with the rural municipality.
- Seventy LPG cylinders have been sent as grant assistance to flood-affected areas of Rasuwa. Further assistance and transport support continue.
- A total of 963 affected people are sheltering in 23 holding centres: 231 in six centres in Rasuwa, 611 in 13 centres in Nuwakot, and 121 in four centres in Dhading.
- As of 17 September, 2,472 police personnel were deployed under the Timure–Tribeni (T2T) operation along river corridors across eight affected districts. Activities included search and rescue, public awareness, damage assessment, public security, information collection, DNA-related information for victims' relatives, relief and rehabilitation, camp and traffic management, criminal investigations, and operations using sniffer dogs and drones.
- The NDRRMA Situation Room maintains daily contact with local governments and wards to prepare municipality report cards covering current conditions and identified needs.
- The central Monsoon Response Command Post and district command posts in Rasuwa, Nuwakot and Dhading discussed road and bridge connectivity, death registration requests from families of missing people, arrangements for children, requests to excavate buried houses, and the need for clarity on residential and public infrastructure construction in flood-affected areas.
- The central Command Post recommended that the Ministry of Home Affairs arrange authorization

to compare digitized fingerprints collected from recovered bodies with records held by the Election Commission, the Department of National ID and Civil Registration, the Department of Passports, the Department of Immigration, and vehicle and transport management offices, as needed for identification.

- The meeting expressed appreciation for the assistance and contributions of search and rescue teams from India, China, South Korea and other friendly countries.

Search and Rescue Operations

Update: Ongoing Search and rescue operations at different hydropower projects sites.

Project Name	Actions Taken
Rasuwagadhi Hydropower Project (120 MW)	• Heavy equipment is required for search and rescue operations, but difficult terrain continues to restrict its transport.
Langtang Hydropower Project (20 MW)	• A joint Nepal Army and Chinese DART team searched approximately 170 metres inside the project tunnel using a thermal drone. Nothing was found. • Manual clearance has reached 170 metres, with 30 metres remaining. • Following a site inspection by representatives of the Rasuwa District Security Committee and the project head, the committee and the project's Managing Director determined that further search and rescue operations are not currently required. • The project company will undertake debris removal at the powerhouse. Security personnel will remain deployed to provide the necessary security.
Chilime Hydropower Project (22 MW)	• Debris has been cleared from 80 metres of the tunnel. Water pumping is reported as ongoing. • Following a site inspection, the District Security Committee and project management determined that further search and rescue operations are not currently required.
Upper Trishuli-1 Hydropower Project (216 MW)	• Thirteen bodies have been recovered from Adit 3 at Hakubesi. Six bodies trapped in reinforcing-steel mesh were initially recovered using three grinders, one gas cutter and two rotary rescue saws. A further seven bodies were subsequently recovered. • Additional personnel are being deployed to continue searches in the area where approximately 20 suspected bodies had earlier been reported beneath mud inside the tunnel. • The passage from Adit 3 towards Adit 1 has been cleared for 1,200 metres. Nepal Army and Chinese personnel have conducted manual searches at Adit 3, supported by thermal-drone operations. • A five-member Nepal Army team, accompanied by project representatives, searched 200 metres inside Adit 1 at Hakubesi and found nothing. • A Nepal Army aircraft transported an excavator body to the project site. A Korean team conducted drone reconnaissance over the residential and office areas.
Trishuli 3A Hydropower Project (60 MW)	• Joint security-force and project teams searched the tunnel, powerhouse and surrounding areas without findings. • Rainfall deposited approximately four feet of soil and debris at the tunnel entrance. Work to reopen the entrance and continue searches is ongoing.
Trishuli 3B Hydropower Project (37 MW)	• Excavation approximately two metres below river level exposed the foundation of the project office building. Structures in the residential areas designated A1, A2, B1, B2 and D have not been found. • Water continues to flow at the tunnel entrance. Adit 1 has been cleared for 476 metres and Adit 2 for 2.7 kilometres. • Excavation at the powerhouse site has yielded no findings. Excavation continues.

- Search and rescue teams from India and China have returned to Kathmandu.
- A total of 8,751 personnel are deployed for search and rescue.
- Air operations have rescued 4,195 people: 3,912 Nepali nationals and 283 foreign nationals.
- Helicopter operations have recorded 1,797 sorties for rescue and the transport of relief supplies.

Rasuwa Flood: Search, Rescue, and Relief Update

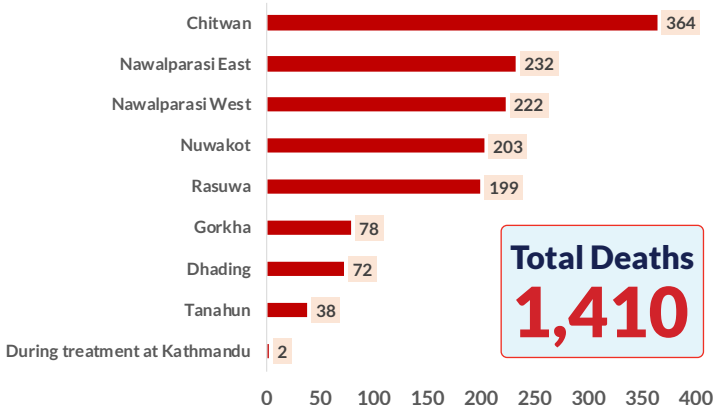

Date: 18 September 2026 Time: 07:00PM

This data has been prepared based on the information received from the District Administration Offices and National Emergency Operation Centers.

Government of Nepal
Ministry of Home Affairs
National Disaster Risk Reduction
and Management Authority
Singhadurbar, Kathmandu

Human Casualties including various unidentified human remains

Treated

- Currently, 18 people are undergoing treatment at 6 different hospitals.
- Medical treatment provided by various security forces: 9,984

Nepal Army Helicopter Flights

1,651
17 flights today
320 Flights APF-Nepal affected areas

Total Rescued

13,756

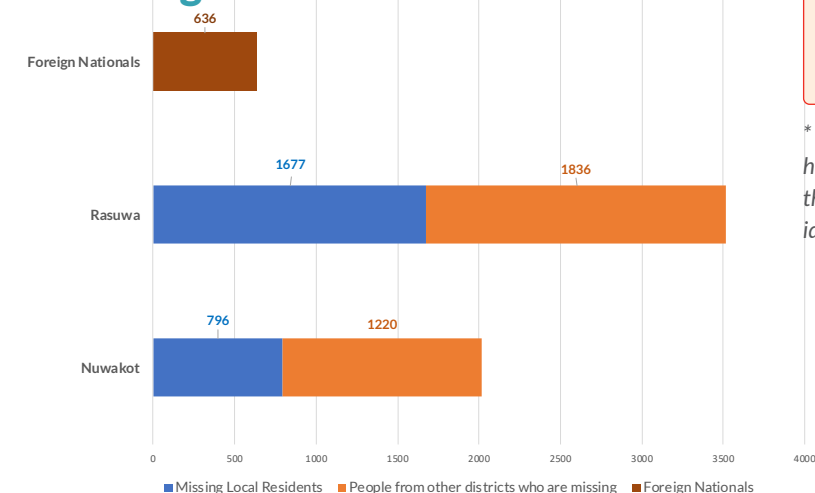

DNA samples collected

1,286 Deaths **1,991** Relatives

Details of the deceased

336 Female **549** Male **525** Human body remains

Missing

23 Holding Centers

Total People at Holding Centers

Nuwakot : 611
Rasuwa : 231
Dhading : 121

Fuel Stock (in liters)

Disel **45 K** Petrol **10 K**
Air fuel **9 K**
*To date 502 gas cylinders have been sent to affected area.

Relief Supplies

- Food and non-food relief materials continuously dispatched to affected districts by road and air; details recorded in the Authority's Setu App.
- Continued support from government/non-government agencies, private, development partners, civil society, and other stakeholders.

Security Forces Mobilised

20,929

Additional Cash support from Government of Nepal

- For families unwilling to stay in holding centers, a monthly allowance for accommodation and livelihood will be provided until alternative housing is arranged, for a maximum period of six months, at a rate of NPR. 15,000 per family (for up to four members) plus an additional NPR. 2,000 per member for any members exceeding that number.

* For DNA testing, samples can be submitted to the relevant District Police Office, along with two photographs and proof of relationship.

The reported number of people who are out of contact may also include unidentified deceased persons and rescued individuals. The data is currently being verified and cross-checked.

- Nepal Army medical teams have provided treatment to 3,996 people since deployment.
- Troops under the Tactical Headquarters continue searches from bases in the Colony–Tupche, Sole and Betrawati areas of Nuwakot and at several locations in Rasuwa.
- A joint Nepal Army and Korean Disaster Relief Team (KDRT) conducted drone reconnaissance and searches in Mailung and Ramche, Rasuwa, without findings.
- Nepal Army drone operations have transported 28,308 kg of relief and essential supplies: 6,381 kg to Rasuwa and 21,927 kg to Nuwakot. Supplies include food, medicines, fuel, stationery, clothing, water, cooking gas and tarpaulins.
- Nepal Army medical teams visited the Safe House/Kriyaputri Building holding centre in Bidur-2 and the Battar Chautara/Cold Storage holding centre in Bidur-6, conducted health checks and consulted affected people.
- Support for the excavation, recovery and management of bodies and human remains continues. Fifty unidentified bodies of people who died in the Rasuwa floods and landslides, previously held at Tribhuvan University Teaching Hospital, were managed at a public site near Dakshindhoka, Gokarneshwar-7, Kathmandu, at 12:40 on 18 September 2026.

Debris Clearance

- Devighat: Three excavators, three backhoe loaders and three tippers are deployed.
- Dhunge: Three excavators, two backhoe loaders and two tippers are deployed.
- Trishuli: One excavator and one tipper are deployed.
- Galchhi: Two excavators and one tipper are deployed.

A meeting with UNDP representatives at the Department of Urban Development and Building Construction on 16 September discussed and planned the preparation of standard operating procedures for debris management and removal, a joint site visit, and a framework for immediate, short-term and long-term rehabilitation and reconstruction.

Roads, Bridges, and Transportation Sector

1. Prithvi Highway

- Mugling–Malekhu Section: Two-way traffic resumed at Krishnabhir at 06:00 on 17 September. Traffic at Jyamireghat–Chaukibhir resumed on the morning of 18 September after being interrupted the previous evening.
- The proposed alternative route through Fisling Bridge to Benighat Bridge remains under procurement. Construction has yet to begin.
- Traffic at Shital Bazaar remains restricted to one lane. Hard-rock blasting is underway in the Shital Bazaar (Krishnabhir) area following completion of the required procedures and a request for Nepal Army support.

Alternative Routes - Kathmandu Access:

- Abukhaireni–12 Kilo–Masane Thanti–Khahare–Nibel–Gyampeshal–Arughat–Salyantar–Dhadingbesi–Parewatar–Gajuritar–Mastar–Kathmandu.
- Abukhaireni–12 Kilo–Masane Thanti–Khahare–Nibel–Gyampeshal–Arughat–Salyantar–Dhadingbesi–Sunaubazar–Kalleri–Mastar–Kathmandu.
- Abukhaireni–12 Kilo–Masane Thanti–Khahare–Nibel–Gyampeshal–Arughat–Benighat–Kathmandu.

2. Tribhuvan Highway

- Traffic is operating in one lane following landslides near Nagdhunga and Pataleban. Traffic is also operating through the Nagdhunga Tunnel.

3. Galchhi–Devighat–Dhunge–Trishuli Section

- The Galchhi–Devighat, Devighat–Dhunge and Dhunge–Trishuli sections are clear and operational. Kolphu Bridge remains open to one-lane traffic following minor repairs.
- Road excavation and track opening have been completed along approximately 100 metres of road washed away by river erosion at Ratamate, reopening the section to traffic.
- Deposits approximately two to three metres thick have been removed at Thulokhola, restoring traffic. Debris clearance has also been completed along Thulokhola–Kashitar–Devighat. Traffic is operating from Galchhi through Devighat to Battar, Bidur, Trishuli and Gerkhu.

4. Bidur–Betrawati Section

- Of the 10-kilometre section, 9.2 kilometres are clear. The remaining 0.8 kilometres were completely washed away, including 0.5 kilometres requiring cutting through hard rock. Road formation and graveling continue, with preparations for blasting in coordination with the Nepal Army.
- Landslides and soft, waterlogged ground continue to affect work on the new and existing tracks.
- Foundation excavation is underway for the Betrawati Bailey bridge.

Bhainse–Betrawati Section

- Approximately 2.5 kilometres of track opening has been completed. Widening to six metres and graveling continue, alongside the installation of Hume pipes and construction of earthen drains where required.
- Rock cutting continues along the remaining approximately 300 metres between Uttargaya School and Betrawati Bridge.
- Debris clearance continues along approximately 500 metres towards Betrawati, where deposits reach three to four metres in places.
- The Betrawati Bailey bridge design is complete and foundation works have begun.
- On 18 September, components for the Betrawati Acrow bridge were loaded at the Nepal Army's No. 28 Brigade in Bara. Transport is being coordinated with the Department of Roads.

5. Alternative Routes Connecting Dhading and Rasuwa

- Dhading: The Dhadingbesi–Parewatar–Nepaltar–Gajuritar–Piplatar–Adamtar–Belintar–Keurinitar–Mastar route connecting to the Prithvi Highway is operational. Road access to the district headquarters has been restored, and maintenance continues.
- Rasuwa: The Dhikure–Phedi Besi Chowk–Hiramunitar–Chogte–Bore Bhanjyang–Sano Khola–Dhanswara–Bhorle–Jibjibe–Bogatitar route is operational, providing alternative access while the Trishuli–Betrawati highway section remains damaged. Maintenance continues.

6. Alternative to Devighat Bridge and Trishuli River Right-Bank Section

- Alternative to Devighat Bridge: The Pipaltar–Pasang Lhamu Highway–Dhamle–Niranjana–Bagkhor–Harre–Deurali–Kolputar route is operational, providing an alternative to the damaged Tadi Khola bridge at Devighat. Maintenance continues.
- Trishuli River Right Bank: The Galchhi–Trishuli Bridge–Kalleritar–Koshikhola–Pimaltar–Darshantar–Chhatre Khola–Gauribesi–Trishuli Bazaar route is operational, connecting communities across the Trishuli River in Nuwakot. Maintenance continues.

7. Suspension Bridges and Rope Crossings

- Rope crossings have been completed at Devighat, Indreni Chaur and Syafrubesi. Installation of two additional crossings at Hakubesi and Pahirebesi is to be expedited.
- Repairs to 20 suspension bridges are targeted for completion within Asoj. Repairs are underway on five bridges, while procurement is progressing for the remaining 15.
- Design and construction tendering for urgently needed new suspension bridges are being expedited.

Education Sector

- Thirty-five temporary learning centres or classrooms have been established: 31 in Nuwakot and Dhading and four in Nuwakot.
- Twenty early childhood development and education kits and 36 teacher kits have been distributed.
- A total of 2,359 student learning kits have been distributed to affected students, including those attending private schools.
- Six schools in Dhading have reopened following debris removal, cleaning and disinfection.
- Cleaning and disinfection have covered Ranabhuvaneshwari Secondary School and 13 classrooms at Sulakshana Secondary School, nine classrooms at Bhairum Secondary School in Bidur-8, and Trishuli Basic School.
- Psychosocial support has reached 159 children at Success Academy in Galchhi. Support teams remain mobilized for 31 schools covered by rapid needs assessments, with focal teachers in 16 schools in Rasuwa and Nuwakot.
- Space for temporary learning centres remains insufficient at some school sites. Local governments and schools have been requested to identify safe locations.

Communication Sector

- Nepal Telecom reports 117 of 120 BTS towers operational. Its Timure, Chilime Khola and Trishuli 3B sites remain out of service.
- Ncell reports service interruptions at Timure, Tiru, Gatlang and Goljung. Transformer failures have affected the Gatlang and Goljung sites, while Tiru remains affected by a power-supply problem. Nearby operational towers are providing coverage where possible.
- Difficult terrain, damaged infrastructure and power shortages continue to hinder the transport of technical equipment and fuel to affected and remote areas. Helicopter support is required to transport replacement transformers to Gatlang and Goljung and deliver fuel to telecommunications sites without electricity.
- Two telephone lines at the Rasuwa District Emergency Operations Centre and one at the Nuwakot District Emergency Operations Centre have strengthened access to the 1234 emergency hotline.
- Free Wi-Fi internet services are available at the following relief camps and holding centres:
 - Bhairum Secondary School, Hattigauda, Bidur-8.
 - Chandrajyoti Secondary School, Pipaltar, Bidur-5.
 - Trishuli Holding Centre.
 - Mustang Gumba, Swayambhu.
 - Nilkantha School Hostel, Rasuwa.
 - Sulakshana School Holding Centre, Bidur-9.
- Of 29 satellite internet terminals arranged for use, 12 have been installed and are operational: one at NDRRMA, seven in Nuwakot and four in Rasuwa.

Health Sector

- Holding-centre health services: Health services cover 27 centres: six in Rasuwa, 15 in Nuwakot, three in Dhading and three in Kathmandu. A cumulative 8,509 services have been recorded, including 848 in the last 24 hours: 80 in Rasuwa, 359 in Nuwakot, 55 in Dhading and 354 in Kathmandu.
- Emergency medical services: Six emergency medical teams remain in the field, comprising five from Nepal APF Hospital and one EPI nurse team. They have managed 8,066 cases, including 71 in the last 24 hours.
- Mental health and psychosocial support: A cumulative 11,251 services have been reported. The district breakdown records 483 services in the latest 24-hour period: 246 in Nuwakot, 97 in Rasuwa, 127 in Dhading and 13 in Kathmandu.

Number of Injured Being Treated at Health Facilities

Name of Health Facility	Total	Under Treatment	Referred	Discharged	Deaths
Rasuwa District Hospital, Dhunche	81		27	53	1
Trishuli Hospital, Bidur, Nuwakot	18		1	16	1
Ayurvedic Hospital, Pipaltaar, Nuwakot	20			20	
National Trauma Center, Mahabouddha	51	3	1	46	1
Shree Birendra Hospital, Chhauni	4	1		3	
TUTH, Kathmandu	83	8	1	73	1
NAMS/Bir Hospital, Mahabouddha	27		1	26	
Patan Academy of Health Sciences, Lalitpur	3	2		1	
Paropakar Maternity and Women's Hospital, Thapathali	24	3		21	
Nepal APF Hospital, Balambu	8			8	
Manmohan Memorial Medical College & Teaching Hospital, Swyambhu	3			3	
Norvic International Hospital, Thapathali	3			3	
Subham International Hospital, Manmaiju	3			3	
Greencity Hospital, Tokha	4		1	3	
HAMS, Dhumbarahi	1			1	
Chirayu National hospital, Basundhara	4			4	
Grande International Hospital, Tokha	3			3	
BNB Hospital, Gwarko	3	1		2	
Dhading Hospital Pvt. Ltd., Adamghat, Gajuri	1			1	

- Disease surveillance: Ten cases were reported in the last 24 hours: six cases of fever with cough, three fever cases and one case of acute gastroenteritis. No fever-with-rash or animal-bite cases were reported. Preparations for influenza rapid testing and public-health monitoring continue.
- Ambulance and emergency transfer services: A NAS ambulance remains on standby for Kathmandu holding centres. A mass-casualty vehicle is stationed at Tribhuvan International Airport, Sinamangal, for emergency transfers.
- Forensic services: Four forensic teams comprising 12 personnel remain active in the field to examine and manage recovered remains. Cumulative deployment has involved 33 teams and 53 personnel.
- Disability support and rehabilitation: A total of 160 persons with disabilities have been identified or assessed in flood-affected areas. More than 220 assistive devices have been distributed, and a disability help desk has been established. Fifty-three people urgently require accessible temporary accommodation and WASH services.
- Medicines and supplies: A total of 111,502 units of medicines and health supplies have been dispatched to health facilities, including 108,000 chlorine tablets, 1,000 malaria rapid diagnostic tests, 900 dengue test kits and 700 scrub typhus test kits. One wheelchair has been provided to Nepal Senior Care for flood-affected older people.

WASH

- Baireni Bazaar, Galchhi-6: Drinking-water supply has resumed for approximately 200 households, benefiting more than 550 people. Over 1,700 metres of HDPE pipe, storage tanks and submersible

pumps support distribution through the existing network.

- Water-quality monitoring: Joint teams have begun testing water at holding centres and from source to tap in Nuwakot and Chitwan. The Bidur water-supply committee has received water-testing equipment and expert support.
- Emergency water supply: Three tankers, two with 6,000-litre capacity and one with 9,000-litre capacity, continue delivering safe drinking water to affected areas.
- Bidur: A water tank has been installed at Gerkhutar Puchhartol in Ward 10. Tanker deliveries are supporting the Colony area, and a bladder tank has been installed at the temporary camp in Dandachautara.
- Janasewa Basic School shelter, Belkotgadhi-8: Improvements include a temporary men's bathing facility with lighting, restoration of a 1,000-litre tank and a handwashing basin, and repairs to taps and plumbing.
- Chandi Basic School holding centre: A 6,000-litre tank and water-treatment system have been installed.
- Bidur water supply: JICA has provided three additional 100-kVA voltage stabilizers.
- Siddhalek, Dhading: Water supply has been arranged for Mahakali Secondary School in Ward 7, serving 400 students, and Jaleshwori Secondary School in Ward 4, serving 249 students.

Food Security and Relief Assistance

- In Dhading, Nuwakot and Rasuwa, 3.34 metric tonnes of high-energy biscuits (BP-5) have been distributed, alongside 128.45 metric tonnes of food sufficient for 15 days for 3,584 households comprising 15,662 people.
- Helicopters have delivered 57.4 metric tonnes of food to areas without road access.
- Emergency food assistance has reached 700 flood-affected households. Veterinary medicines and disinfectants have also been provided for animal-disease management in Rasuwa, Nuwakot, Dhading and Tanahun.

Continuing Needs and Priorities

- Search and recovery: Continue excavation and identification of suspected bodies at Upper Trishuli-1. Maintain safe access, debris management and drainage at Rasuwagadhi, and provide heavy equipment and transport support. Continue identification and dignified management of recovered remains.
- Roads and bridges: Complete rock cutting, drainage and debris clearance towards Betrawati. Transport and install bridge components, confirm when the Devighat bridge can open to traffic, and expedite rope crossings at Hakubesi and Pahirebesi.
- Communications and electricity: Transport replacement transformers to Gatlang and Goljung, resolve power problems at Tiru, and deliver fuel and equipment to inaccessible telecommunications sites.

- Education and temporary shelter: Identify safe sites for additional learning centres where school space is insufficient. Arrange suitable alternative accommodation for families sheltering in schools, while maintaining learning and psychosocial support for affected children.
- Shelter transition: Update household and holding-centre records, confirm beneficiaries and safe land, and track rental assistance, grant payments, temporary housing and completed relocations.
- Health and protection: Maintain medical services, surveillance, psychosocial support and referrals as families relocate. Prioritize accessible accommodation, safe water, medicines, assistive devices and rehabilitation for people requiring additional support.
- Water and sanitation: Continue water-quality testing and monitor the reliability of restored supplies. Maintain tanker deliveries, storage, treatment, handwashing and bathing facilities at camps and schools.
- Food security and livelihoods: Maintain deliveries to remote communities, resolve cooking-gas shortages and complete pending food procurement. Advance the rapid assessment and address veterinary care, animal feed, safe livestock shelter and agricultural-input needs.

भोटेकोशीमा आएको बाढीपछि बेपत्ता आफन्तको पहिचानमा सहयोग गरौं

डीएनए (DNA) परीक्षणका लागि नजिकका आफन्तले नमुना दिनुहोस्

भोटेकोशी नदीमा आएको बाढीपछि फेला परेका शव तथा मानव अंगको वैज्ञानिक विधिबाट पहिचान गर्न नेपाल प्रहरीले डीएनए परीक्षण प्रक्रिया अघि बढाएको छ ।

डीएनए नमुना कसले दिने?

बेपत्ता व्यक्तिका नजिकका रगतका नातेदारमध्ये:

बाबु, आमा, छोरा वा छोरीमध्ये कुनै एक जना

नेपालमा रहेका आफन्तका लागि

नेपाल प्रहरी अस्पताल, महाराजगञ्जको प्याथोलोजी ल्याब

नजिकको जिल्ला प्रहरी कार्यालय

ताजा रगतको नमुना दिनुहोस् ।

२ प्रति पासपोर्ट साइजको फोटोसहित उपस्थित हुनुहोस् ।

विदेशमा रहेका आफन्तका लागि

आफ्नो देशको मान्यताप्राप्त फोरेंसिक प्रयोगशालाबाट **Autosomal STR DNA Profiling** गराउनुहोस् र डिजिटल प्रति नेपाल प्रहरीलाई पठाउनुहोस् ।

DNA नमुना संकलन

मान्यताप्राप्त फोरेंसिक प्रयोगशालामा परीक्षण

Autosomal STR DNA Profiling

डिजिटल प्रति नेपाल प्रहरीलाई पठाउनुहोस्
